

**Your Trusted Partner  
for Key Civils Projects.**

# OVER 100 YEARS EXPERIENCE IN CIVILS PROJECTS

KPI Rail & Infrastructure is a UK-based, multi-disciplinary consultancy delivering exceptional construction solutions.

Founded in 2021, we bring over 100 years of combined industry experience, providing tailored services across a range of sectors including transport, housing, education and industrial projects.

We focus on delivering cost-effective, high-quality and sustainable solutions. By leveraging our expertise, we aim to establish long-term client relationships and become a trusted industry leader.

## OUR SERVICES

- ✓ **Project Management** – Expert oversight ensuring seamless execution of complex, multi-million-pound projects.
- ✓ **Commercial & Contractual Support** – Contract administration, dispute resolution and claims management.
- ✓ **Planning & Project Controls** – Feasibility studies, risk assessments and tender planning.
- ✓ **Quantity Surveying & Cost Management** – Budget planning, cost estimation and financial oversight.
- ✓ **Site Supervision & Clerk of Works** – Quality assurance and on-site project inspections.
- ✓ **Utilities Management** – Infrastructure design and sustainable solutions.
- ✓ **Rail Consultancy** – Recruitment, Safety and regulatory compliance for railway projects.

## WHY CHOOSE US?

### ✓ Experienced Leadership –

A team of seasoned professionals with a track record of success.

### ✓ Cost-Effective Solutions –

Competitive pricing compared to larger consultancies.

### ✓ Agile & Client-Focused Approach –

Personalised service with direct senior involvement.

### ✓ Commitment to Sustainability –

Innovative and environmentally responsible practices.

## SECTOR EXPERIENCE

- Transport & Highways
- Commercial & Industrial
- Educational Institutions
- Housing & Hospitality
- EV Charging Infrastructure

## OUR LEADERSHIP TEAM

KPI's accomplished leadership team has over 100 years of extensive cross-sector experience, in civils, highways and rail.

KPI is known for strategically executing programme visions, seamlessly managing complex milestones & adapting to evolving project demands.

Having managed a range of civils, drainage, transport and structural works, KPI has a steadfast commitment to excellence in safety & delivery.

We provide a personalised, high-quality service with direct senior involvement, ensuring cost-effective solutions compared to larger consultancies.

## WHAT OUR CLIENTS SAY...

“We have had the opportunity to partner with KPI and can attest to their expertise in delivering complex construction projects with efficiency and professionalism. Their ability to manage and execute projects with precision has established them as a reliable and highly capable partner in the industry.

From initial planning to project completion, KPI demonstrated strong technical knowledge, effective leadership, and a proactive approach to problem-solving. Their commitment to quality and safety was evident throughout, ensuring compliance with industry standards and regulations at every stage of the project.

A key strength of KPI is their ability to adapt to evolving project requirements while maintaining schedules and budgets. Their collaborative approach and clear communication streamlined the process, fostering an effective and productive working relationship.

We confidently recommend KPI to any organisation seeking a professional and results-driven construction partner. Their expertise, attention to detail and ability to navigate complex projects make them a valuable asset and we look forward to future opportunities to work together.”

*Darren Edwards DIO MPP (Navy Estates) Programme Lead*
