

**Your Trusted
Recruitment Partner
in Construction Solutions.**

OVER 100 YEARS EXPERIENCE IN CIVILS PROJECTS

KPI Rail & Infrastructure is one of the UK's leading suppliers of experienced, safety-conscious personnel to the construction, rail and infrastructure sectors.

Working within rail, highways and utilities, we provide contract and temporary staff at all levels, from safety-critical employees to specialist civil engineering staff, plant operators, all trades and engineering disciplines.

Our clients know when they receive staff from us that not only will they gain knowledgeable and competent people but also individuals that we know and trust. We have large pools of skilled labour with a proven track record of delivery, which you can depend on.

OUR SERVICES

- ✓ Contingent labour supply & package works.
- ✓ Site supervision.
- ✓ Site engineers.
- ✓ Trades, Joiners, Steel Fixers, Electricians, Plumbers, all groundworks, Plant Operatives.
- ✓ Safety critical staff; National Grid and Power.

WHY CHOOSE US?

Our ethos is to create a sustainable business. We ensure our workforce receives ongoing support and training to enrich their personal development and the skills they can offer to our clients' projects. Our staff anticipate to be with us for the long term and are invested in their personal journey.

We collaborate with our clients to ensure we are implementing the strategies they have in place to reduce our environmental footprint and have a positive, sustainable impact wherever we work.

Our growth strategy is to have strengths and expertise specific to the regions we support and to gradually extend our support to new regions. This strategy enables us to drive efficiencies through limited travel time, zero hotel stays where feasible and a minimum impact on fatigue.

WHERE WE WORK

- Highways & Rail
- National Grid
- New Build & Re-fit
- Utilities: Water, Gas, Electric and Fibre

OUR LEADERSHIP TEAM

Our leadership team of highly regarded Directors - with over forty years experience in major infrastructure projects across Rail, Civils, Highways, National Grid and Nuclear - have the expertise to deliver your projects from planning through to end delivery.

We can help you safely and efficiently manage geographical labour challenges, skill gaps and increases in labour demand to deliver projects.

As a valued partner, we will assist in all aspects of the recruitment and labour management service, with a comprehensive back-office team which manage candidate attraction, onboarding, compliance and training requirements.

Our reputation is built on our ability to provide tried and trusted teams that are well briefed, reliable and safety conscious. We are able to maintain consistency through offering on-going opportunities with our exclusive network of candidates across the rail and infrastructure sectors.

WHAT OUR CLIENTS SAY...

"We have had the opportunity to partner with KPI & can attest to their expertise in delivering complex construction projects with efficiency & professionalism. Their ability to manage & execute projects with precision has established them as a reliable & highly capable partner in the industry.

From initial planning to project completion, KPI demonstrated strong technical knowledge, effective leadership & a proactive approach to problem-solving. Their commitment to quality & safety was evident throughout, ensuring compliance with industry standards and regulations at every stage of the project.

A key strength of KPI is their ability to adapt to evolving project requirements while maintaining schedules & budgets. Their collaborative approach & clear communication streamlined the process, fostering an effective & productive working relationship.

We confidently recommend KPI to any organisation seeking a professional & results-driven construction partner. Their expertise, attention to detail & ability to navigate complex projects make them a valuable asset & we look forward to future opportunities to work together."
